### **NOTICE OF NO AUDITOR REVIEW OF THE CONDENSED INTERIM FINANCIAL STATEMENTS**

The accompanying unaudited condensed interim financial statements of the company have been prepared by and are the responsibility of the Company's management. The Company's independent auditors have not performed a review of these condensed interim financial statements.

## **MANAGEMENT’S RESPONSIBILITY**

To the Shareholders of Sterling Metals Corp (Formerly Latin American Minerals Inc.):

Management is responsible for the preparation and presentation of the accompanying unaudited condensed interim financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the unaudited condensed interim financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded, and financial records are properly maintained to provide reliable information for the preparation of unaudited condensed interim financial statements.

The Audit Committee are composed primarily of directors who are neither management nor employees of the Company. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information presented. The board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and the external auditors. The Audit Committee has the responsibility of meeting with management and the external auditors to discuss the internal controls over the financial reporting process, auditing matters and financial reporting issues. The Audit Committee is also responsible for recommending the appointment of the Company’s external auditors.

We draw attention to Note 1 in the unaudited condensed interim financial statements which indicates the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern.

We also draw your attention to Note 7, Property rights, evaluation and exploration assets commitments and contingencies outstanding as of June 30, 2021.

The financial statements were approved by the Board of Directors on August 30, 2021.

**NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS**

---

**1) Nature of operations and going concern**

Sterling Metals Corp. (formerly Latin American Minerals Inc.) ("SAG" or "the Company") was incorporated under the Canada Business Corporations Act on December 9, 2003. The Company's principal business activity is the exploration and development of resource properties. The head office of the Company is located at Suite 401, 217 Queen Street West, Toronto, ON, M5V 0R2. The Company is listed on the TSX Venture Exchange ("TSX-V") under the symbol SAG (formerly under the symbol LAT).

These unaudited condensed interim financial statements have been prepared on the going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company realized a net loss of \$827,247 for the six months ended June 30, 2021 (2020: loss of \$226,835). On June 30, 2021, the Company had an accumulated deficit of \$50,920,983 (December 31, 2020: \$50,093,736). In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. On June 30, 2021, the Company had a total of \$5,843,462 of current assets and working capital of \$5,417,943 and had flow through expenditure commitments of \$1,631,720 to be spent by December 31, 2021, and \$1,449,400 to be spent by December 31, 2022.

While the Company has been successful in obtaining the necessary financing to cover its corporate operating costs and advance the development of its projects through the issuance of common shares and the exercise of warrants in the past, there is no assurance it will be able to raise funds in this manner in the future. There remain material uncertainties that may cast significant doubt as to the Company's ability to continue as a going concern. These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern.

The recent outbreak of the coronavirus, also known as "COVID-19", has spread across the globe and is impacting worldwide economic activity. Conditions surrounding the coronavirus continue to rapidly evolve and government authorities have implemented emergency measures to mitigate the spread of the virus. The outbreak and the related mitigation measures may have an adverse impact on global economic conditions as well as on the Company's business activities. The extent to which the coronavirus may impact the Company's business activities will depend on future developments, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, business disruptions, and the effectiveness of actions taken in Canada and other countries to contain and treat the disease. These events are highly uncertain and as such, the Company cannot determine their financial impact at this time.

**2) Statement of compliance**

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB") and should be read in conjunction with the Company's audited financial statements as of and for the year ended December 31, 2020. They do not include all the information required for a complete set of International Financial Reporting Standards ("IFRS") financial statements. However, selected explanatory notes are included to explain events and transactions deemed significant to provide an understanding of the changes in the Company's financial position and performance since its most recent annual financial statements. These unaudited condensed interim financial statements are presented in Canadian dollars. The Canadian dollar serves as the functional currency of the Company.

The accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended December 31, 2020.

The unaudited condensed interim financial statements were approved and authorized for issuance by the Board of Directors on August 30, 2021.

(a) Basis of Measurement

These unaudited condensed interim financial statements have been prepared on the going concern basis, under the historical cost convention except for certain financial instruments that are measured at fair value as described herein.

**NOTES TO THE FINANCIAL STATEMENTS**

---

**3) Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with IFRS requires the use of judgments and/or estimates that affect the amounts reported and disclosed in the consolidated financial statements and related notes. These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances, having given regard to previous experience, but actual results may differ materially from the amounts included in the financial statements. The critical estimates and judgments applied in the preparation of the unaudited condensed interim financial statements for the three and six months ended June 30, 2021, are consistent with those applied and disclosed in note 3 to the Company's audited financial statements for the year ended December 31, 2020.

**4) New accounting standards issued and adopted in the current period and Recent accounting pronouncements not yet adopted**

New Standards Adopted in the Current Period

There were no new standards adopted by the Company during the period.

**5) Financial instruments and risk management**

**a) Fair value hierarchy**

Financial instruments are recorded at fair value are classified using a fair value hierarchy that reflects the significant of the inputs used in making the measurements.

The fair value of hierarchy has the following levels:

- Level 1 – quoted prices in active markets for identical financial instruments.
- Level 2 – quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in the markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company's financial instruments include cash, accounts payable and accrued liabilities and are classified as Level 1. The carrying amounts approximate their fair values due to their short-term nature.

**b) Credit risk**

Credit risk is the risk that a third party might fail to discharge its obligations under the terms of a financial instrument. Credit risk arises from cash with banks and financial institutions. It is management's opinion that the Company is not exposed to significant credit risk arising from these financial instruments. The Company limits credit risk by entering into business arrangements with high credit-quality counterparties. There have not been any changes in the exposure to risk or the entity's objective, policies, and processes for managing the risk.

**c) Interest rate risk**

Interest rate risk is the risk of losses that arise as a result of changes in contracted interest rates. The Company is not exposed to significant interest rate risk. There have not been any changes in the exposures to risk or the Company's objectives, policies, and processes for managing risk.

**d) Currency risk**

The Company operates domestically in Canada. The Company incurs certain expenditures in US dollars. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the functional currency of the Company or subsidiary that holds the financial asset or liability. The Company's risk management policy is to review its exposure to non-Canadian dollar forecast operating costs on a case-by-case basis.

**FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2021**

*Expressed in Canadian Dollars*

**NOTES TO THE FINANCIAL STATEMENTS**

---

**5) Financial instruments and risk management (continued)**

The majority of the Company's forecast operating costs are in Canadian dollars. The risk is measured using sensitivity analysis and cash flow forecasting. There have not been any changes in the exposure to risk or the entity's objectives, policies, and processes for managing the risk.

The carrying amount of foreign currency financial assets and liabilities in Canadian dollars as of June 30, 2021, is as follows:

<b>Canadian Dollar amounts of foreign currency assets and liabilities</b>		
	Cash	Liabilities
US Dollars	\$2.450	<i>\$nil</i>

Based on the financial instruments held as of June 30, 2021, the Company's net loss would have increased or decreased by \$303 had the Canadian dollar shifted by 10% as a result of foreign exchange effect on translation of non-Canadian dollar denominated financial instruments.

**e) Liquidity risk**

Liquidity risk management involves maintaining at all times sufficient cash, liquid investments and committed credit facilities to meet the Company's commitments as they arise. The Company manages liquidity risk by maintaining adequate cash reserves and by continuously monitoring forecast and actual cash flows. Where insufficient liquidity may exist, the Company may pursue various debt and equity instruments for short or long-term financing of its operations.

As at June 30, 2021, the Company had positive working capital of \$5,417,943. Available funds from cash on hand and working capital are expected to be sufficient to cover a portion of the Company's planned expenditures for the next twelve months. Any shortfall in available funds may be made up of possible proceeds of possible equity financings, loans, lease financing and entering into joint venture agreements, or any combination thereof. There have not been any changes in the exposure to risk or the entity's objectives, policies, and processes for managing the risk.

This deadline passed without the Company making the required payment or issuing the common shares to Grifco.; and,
- the payment of \$25,000, the issuance of 2,500,000 common shares to Grifco and the Company incurring a further \$500,000 in expenditures on the Property on or before the third anniversary of the Effective Date.

The Company was not successful in negotiating an extension of time to complete the required exploration expenditures, make the necessary cash payments and issue common shares to Grifco, resulting in the Property Option Agreement being terminated by Grifco. As of December 31, 2020, the Company assessed the value of certain expenditures that had been capitalized to the Butt Township exploration and evaluation assets and determined that continued capitalization of these amounts was no longer justified. The Company recorded an impairment charge of \$265,500 against the amounts previously capitalized reducing the carrying amount to nil.

**11) Capital management**

The Company's capital structure consists of all components of shareholders' equity in the amount of \$9,379,662. The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition and exploration of resource properties and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future.

The Company invests all capital that is surplus to its immediate operational needs in short-term, highly-liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.
